

PROVIDING SOLUTIONS

Electrical, Instrumentation & Measurement

Red Deer | Provost | Drayton Valley | Grande Prairie | Dawson Creek | Cambridge | Nisku

PROVIDING SOLUTIONS

Construction

- Electrical, Instrumentation & Measurement
- Commissioning
- Modular skid construction
 - E-house fabrication
 - Process skids
- Industrial oilfield solutions
 - Centrifuge
 - Power distribution
 - Pump packages
- Green & Brown-field facility construction
- Control panel & junction box fabrication
- Design services

Maintenance

- Volumetric, bench & master liquid meter proving
- Predictive systems analysis
- Preventative maintenance
- Calibration & measurement
- Infrared thermography scanning & testing
- Combustion services

Automation Services

- PLC, DCS, & HMI programming
- SCADA - host & site programming services
- Electronic flow measurement
 - Installation
 - Calibration

Rental Equipment

- Chart recorder, up to 15,000 psi
- Driflo meters
- Deadweights
- Dataloggers
- PD meters
- Roots meters
- Turbines & flow meters
- Totalizers
- Meter runs & orifice fittings
- Gauges up to 20,000 psi
- Chemical injection pumps
- Portable LP test separators
- Pressure relief valves
- Gate valves
- Many others...

Flare Gas Measurement services

- Supply
- Installation
- Calibrations & maintenance

QUALITY PEOPLE

QUALITY PRODUCTS

Plant & Field Services

Electrical

- Motor Control Cleaning & Testing Re-torque
- Termination Checks and Scans
- UPS Battery & Function Testing
- Infra-red Scanning Services
- PLC Panel Termination Checks
- Lighting Panel Checks
- System Grounding Checks
- Heat Trace Testing
- Facility lighting, maintenance & upgrading
- Low voltage transformer cleaning and re-torque
- Solar system checks & repairs

Instrumentation

- Fire and gas testing & calibrations
- Compressor panel checks & calibrations
- Instrument device function testing
- Volumetric meter proving, repairs & calibrations
- Orifice plate checks
- Pneumatic control inspection & function test
- Burner management system checks
- Glycol & chemical pump repairs
- Thermo electric generator testing & repairs

"I would like to say Thank You to Kings Energy for the Excellent service over the 2019 holiday season, for a Generator they were working on when the completion date was pushed up 2 week by our customer. Being the holiday season, I was unsure we could make this happen, but the unit was completed before the required date to the effort they put forward By King Energy Staff. Thank you Again"

~ Tony Tisdale
